

TES TALK

The Official Traditional Equitation School Newsletter

Issue No. 5

SPEAKER SERIES from August a Great Success!

Commonly Used Medications, Herbs and Supplements for the Horse

David W. Ramey, DVM

Guest Speaker Series with David Ramey was an informative talk about the use of traditional and alternative medications. Dr. Ramey debunked the use of many commonly used supplements and feeds. His common sense approach to basic care of the horse helps the horse owner to save money, and wind their way through the use of medications. A question and answer session followed.

Join Our Members

British Horse
Approval
Establishment

In July 1999, we became a riding school on the list to obtain the "British Horse Society Approved Establishment" certification process.

For T.E.S., the "British Horse Society Approved" means we meet high standards and provide a safe environment for professional instruction. Approved barns are inspected annually regarding equines, saddlery, teaching, facilities, and accommodation. We are proud to have this recognition.
